PENGUKURAN DIMENSI STRAIGHTNESS, LEVELNESS, DAN OVALITY PADA MOORING PILE MENGGUNAKAN TOTAL STATION DI PT. MCDERMOTT KOTA BATAM

(Politeknik Negeri Batam, 2024-01-19) Zibrael, Muhammad Taro; RASSARANDI

The development of offshore infrastructure, particularly in the context of mooring pile development, plays a crucial role in the oil and gas industry. Mooring piles, used as anchor points and reinforcement elements in offshore structures, require p
